Sunday night was another of the cold ones for this latitude, thermometers in the borough registering 4 to 6 below zero at six o'clock Monday morning. Light snows have fallen within the past few days, but not enough to make sleighing.

Acknowledgment of subscription renewals is made as follows, with thanks: Mrs. W. B. Osgood, Kellettville, Pa.; G. H. Killmer, Chas. H. Hunter, Tionesta; Mrs. C. J. Stewart, Morgantown, W. Va.; G. E. Mong, East Toledo, O.; H. O. Blocher, Tionesta township; Chas. Metz, Eagle Rock, Pa.; George L. Scott, Colingswood, N. J.

C. B. Zuehdel, of Starr, informs us that someone has been picking a padlock on his granary door and walking off with his corn. Last week after a night-time visit from the same chap "Coon" found a pair of shears in the granary. He says if the owner will come and claim the shears he will present him with a good big sack of corn.

A hog was carried up to the Mayburg Supply company's butcher shop last week that for weight makes a new record. The big porker balanced the scales at 605 pounds, and was raised by Amos Shotts of Tylersburg. This beats Henry Shaffer's hog by 52 pounds, but as it was raised in Clarion county, and by one of the most progressive farmers in that county, Mr. Shaffer still holds the belt for a Forest county production.

The Finnegan well on the Bleakley tract, Bates run, Tionesta township, was due to finish yesterday when the operators expected to reach the fourth sand at a depth of 700 feet. A good showing of oil was found in the second sand, and if nothing better presents the well will be shot in that sand, Mr. Finnegan believing it will make a paying producer.

Landlord Harry Canfield of the Globe Hotel, West Hickory, submitted to an operation for appendicitis at the Oil City hospital Monday. The operation was performed by Dr. J. B. Sigging, and although it was a rather serious case, some complications having been encountered, the patient was doing well at last report, and is expected to come along without great difficulty.

The Sheffield Observer of last week gives an account of a very pretty wedding that occurred in that place Tuesday morning February 10 at the residence of Mr. and Mrs. A. W. Vantassel on Mill street, when their daughter, Miss Irene, became the bride of Mr. Christian F. Bourne, of Warren. The bride is a granddaughter and her mother is the daughter of Mr. and Mrs. J. B. Eden of Tionesta township.

Suffering from a fracture of the right leg, Miss Gertrude Boslough, of Reno, well known in Oil City, where she has many friends, was brought to the Oil City hospital Saturday. Miss Boslough slipped and fell on a sidewalk Saturday morning. She was reported as resting comfortably Sunday evening. Derrick, Miss Boslough is quite well known in Tionesta also, having been a frequent visitor at the home of Mrs. James Haslet.

For the year 1913 the Jefferson county poor farm, raised enough potatoes to supply all the wants of the county home. The crop was 990 bushels. More than enough was raised, and the county commissioners have nearly 100 tons for sale. The butter yield of the farm was 2,000 pounds and the hens laid 1,089 dozen of eggs. The yield of wheat was 218 bushels, oats 1,426 bushels, buckwheat 80 bushels, corn 1,050 bushels, cabbage 2,200 heads, onions 50 bushels, beans 8 bushels and rye 34 bushels.

E. A. McGraw of McGraw underwent an operation for appendicitis at the city hospital on Monday, Dr. Russell of Cincinnati doing the work. It was found after the operation had been begun that the case was a seriously complicated one, but on Tuesday the young man was reported as doing very well and his recovery is now expected. Tionesta Herald.

McGraw was a resident, for about a year, of Tionesta, being in charge of the Maps hardware store. He is now a resident of Tidouate.

The days of new maple sugar are rapidly drawing nigh and soon there will be busy times in the "sugar bush." Time was when Forest county produced much of this delicious sweetness and the inhabitants of the neighborhood adjacent to the unbroken forests gathered sap from the great maples that interspersed the hemlocks, but the lumberman's ruthless onslaught has changed all that, and a few gallons of the syrup and a very little sugar, and that only for family consumption, now marks the limit of production.

Saturday afternoon the Irvine Oil and Lumber company, of which our former citizen E. E. Norton is a leading member, brought in a well on the land near Tidouate, which promises to start off exceedingly good, possibly doing thirty barrels a day. Some time ago this company purchased a tract of the old Irvine estate for the purpose of cutting off the timber but later decided to drill a well. The well started at thirty barrels per day and although it is now a month old is still producing better than twenty barrels per day.

Wm. Shoup of Muzette, unexpectedly found an oil well last week. He with some neighbors had been using gas from a well that was drilled on warrant 5155 in Kingsley twp. and for some time the gas supply became weaker and the supposition was that water was drowning out the gas. Mr. Shoup rigged up a derrick and started a bailer down and to his surprise brought oil instead of water. The bailer was kept busy and emptied into a tank and 13 barrels of oil were secured. This territory will now be tested.—Marienville Express.

For the purpose of stimulating interest and lending assistance to poultry raisers and those who contemplate taking up the business Congressman Hulings announces that he has been successful in securing from the Department of Agriculture a limited supply of a series of eight pamphlets and will take pleasure in mailing a set gratis to any resident of the 25th district, upon request, as long as the supply lasts. The pamphlets cover practically every phase of the poultry business and are the result of years of study and experimentation by the scientists of the department.

The forged check case against Everett Wolcott of this place was amicably compromised before a Tidouate justice of the peace last Saturday. The check which caused the trouble was drawn on the Lambert National Bank of Oil City in payment of Frank Hurton, and purported to have the signature of Charles E. Gesin as maker. On the night of Jan. 13, the young man stopped at D. Carmichael's hotel, the Hanchett House, and next morning, David Levine, the hotel clerk, endorsed the check as a mark of identification and it was cashed at the Tidouate Savings bank. The case was settled by Mr. Wolcott paying back the amount received on the check and the expense and costs connected with the proceedings.

A wild and woolly story comes from Irvin to the effect that Tony Manuscuso, employed as a section hand, was attacked by a large bald headed eagle, while he was eating his noonday lunch in a clump of bushes near the railroad track at West Hickory Saturday. Tony was sitting on a log enjoying his lunch when the eagle swooped down upon him and sank its talons into Tony's coat. Fortunately the coat was made of heavy leather otherwise he would have been seriously injured. After an exciting battle, which lasted for several minutes, Tony put the feathered monster to flight, using as a weapon the iron handle of a track jack. The man's coat was torn to ribbons. The big bird had been hovering about the forest in West Hickory several days, and after devouring all the rabbits, pheasants and other small game within the radius of its eagle-eyed vision, was still unsatisfied, and was driven to make the attack through hunger.

G. T. Anderson, Tionesta's up-to-date jeweler, desires the public to know that he has just opened the finest selection of watches, clocks, silverware and jewelry of every description, that has ever been shown in Tionesta, and is prepared to furnish anything desirable in his line. His prices will be found 25 to 50 percent lower than you would pay elsewhere for strictly first class goods and always guaranteed as represented. Repairing watches, clocks and jewelry a specialty. When in need don't fail to call on him in the Lawrence building, near the corner of Elm and Bridge streets.—Adv.

Sheffield Observer: The White Star Oil and Gas Co., of Marienville drilled in a gas well the past week that is good for more than half a million feet of gas per day, and will be drilled to the third sand, in which gas in paying quantities has been found in other wells on the lease. W. T. Hart, of this place, with Judge Aul and David Mizis, of Marienville, on this lease and have an excellent property. —A Showers and W. T. Hart have sold their oil lease at Blue Jay, known as the Showers lease, to Warren parties, and we understand \$10,000 was the purchase price. Only a part of this lease has been drilled.

Common carriers in Pennsylvania may issue to employees, officers and those dependent on them passes as has always been the case. In the recently enacted public utility law there is nothing that can be construed against the "family pass." This was the verdict last week of the Public Service Commission which two weeks ago held a hearing on the subject. This decision will no doubt cause the Pennsylvania railroad to rescind its order abolishing passes. Such an order, it is estimated, will affect 250,000 in this state. The commission decided also that in no part of the law can it be construed that street railways cannot carry firemen and policemen free of charge while on duty. No decision was made on the appeal for reduced rates for clerymen.

The most unique damage suit ever begun in Venango county was instituted last week at Franklin when the attorneys of Alfred Severina, formerly the leader of an Italian band at Franklin, began an action to recover \$2,000 from Paul Hepler, proprietor of the Commercial hotel in that city. The plaintiff alleges in his statement of claim that in December of last year he was solicited to drink what was supposed to be whisky alleged to have been purchased of an employee of the defendant by one Girardo de Fones; that he drank a small portion of the liquor contained in the bottle; that it contained a certain noxious, poisonous, caustic liquor, not whisky and that his throat and stomach were burned; that he suffered great pain and that he believes he will be permanently injured and unable to work.

G. G. Gaston, Tionesta's new postmaster, assumed the duties of his appointment on Monday, when the retiring incumbent turned over all the government property to his successor. After four years of faithful work in a very trying position Mr. Jamieson retires with the good opinion of all the patrons of the office, having during that time fully sustained his reputation for kindness and courtesy under many annoyances. We feel safe in predicting that Mr. Gaston will be the same sort of official throughout his term, and will step down and out (when the next Republican is appointed) with the same good opinion of the public which he has faithfully served. Mr. Gaston retains Miss Belle Jamieson as his clerk, which action gives very general satisfaction.

Special meetings in both the M. E. and Presbyterian churches are continuing throughout this week, and are being well attended. Both ministers are giving their congregations the best that is in them in the way of excellent sermons, and while they have been well sustained in the matter of attendance, they no doubt feel that there is room for still greater zeal in this direction. So why not arrange your affairs to attend yourself, if you have not been, and take a friend with you. And this, by-the-way, reminds us that Rev. Mr. Bailey announced that next Sunday would be a rally day for church attendance and that he hoped everybody who was able would attend some one of the churches in the town. His appeal was of course more particularly to those who are not regular in their attendance and to those who scarcely ever go. Is there any reason why this appeal should not touch you? Think it over, and then make it a point to come out.

Elizabeth (Daley) Rynd, wife of Patrick Rynd, died suddenly at the home of her daughter at Kado, Sunday morning, 8th inst., of heart failure. She had been ill for about three weeks and had gone to her daughter's home to visit and rest. The deceased was born in County Main, Ireland, about 64 years ago and came to this country when a young girl with her parents, who located first in Pittsburg, where she was united in marriage with Mr. Rynd. About 32 years ago they moved to Goinsva, Forest county, where they have since continued to reside, occupying a farm. Let us mourn the loss of a loving wife and mother as the husband, one daughter and three sons, as follows: Mrs. James S. Zast of Kane, Robert and Joseph Rynd of West Virginia, and John, employed in the oil fields of Texas. Mrs. Rynd was a faithful member of the Catholic church, and her funeral and burial will be at Crown, Clarion county, tomorrow or next day, depending on when her children can reach home.

Wise. That he has seen some wonderful changes in the territory where he now lives goes without saying. He well recalls a panther trailing his father home, and the junctions laid up on the children of his day not to stray beyond the clearings for fear of the wild beasts of the woods.—Brookville Republican.

The evening was spent in fancy work but we are inclined to think from the well filled tureens which were taken, and the report that all had a pleasant time; that some other members of the body worked perhaps more than the fingers. Evening Clothes That Are Hard To Advertise.

The reason that this advertisement does not carry an illustration is because Adler-Rochester Evening Clothes are unlike any others. Pictures—particularly newspaper pictures—fail to do them justice.

Neither does the success of these famous clothes lie in what is claimed for them. It is in their actual appearance when worn—the aristocratic air they carry—the faultless appearance of

Adler-Rochester Evening Clothes.

There are strong truths to be told about these—about the way they are made, the rare quality of material, the scientific methods of obtaining fit, etc.—truths that without investigation would be utterly unappreciated.

Evening Clothes are either right or ridiculous. Dress Suits are priced at \$30.00, \$35.00 and \$40.00—full silk lined in all cases.
